

## Letter of Recommendation

March 19, 2018

To whom it may concern,

It gives me great pleasure to recommend Elizabeth Vega for any future endeavor. I have known Elizabeth since August of 2016 , and have had the pleasure of being her teacher for Trigonometry and Pre-Calculus. She is an exceptional student and example for her peers. One of Elizabeth's greatest qualities is her desire and determination to learn. Elizabeth shines in and out of the classroom. She has proven to be one who always puts forth maximum effort towards whatever task she undertakes. Whether it be in the classroom or in her computer technology magnet program, she continuously demonstrates and models excellence with a caring attitude toward her peers and teachers.

Elizabeth is currently in my Trigonometry class. She demonstrates great organization and commitment to all of her assignments. Her dedication to studying outside of the classroom has led her to be one of the highest scoring students in the class. A quality that always takes Elizabeth to her goals is her relentless attitude toward any obstacle that may come her way. Elizabeth has proven by her past accomplishments that she is ready to put in the work necessary to achieve her goals. Elizabeth is known for helping her peers with the material on a regular basis. Her patience and dedication to helping her peers improve is a constant reminder of her selflessness. One of Elizabeth's most promising qualities is her relentless spirit when faced with an obstacle. She does not allow a fear of failure to hinder her, and constantly rises to the challenge. It is this quality that has brought Elizabeth to try new and more challenging learning opportunities. Please feel free to contact me if you have any questions. My contact information is listed below.

Anmaree Del Valle

Secondary Mathematics Teacher

Miami Arts Studio 6-12 @ Zelda Glazer
